# ELECTROSOFT 2023 YEAR IN REVIEW

2023 was a remarkable and dynamic year for Electrosoft, highlighted by a substantial 66% growth in annual revenue. Bolstering this milestone, we expanded our leadership team and workforce, welcoming a team of talented professionals dedicated to tackling the intricate challenges of today's defense and civilian agencies. Throughout the year, federal cybersecurity priorities – notably Zero Trust and Identity, Credential, and Access Management (ICAM) – were top of mind at customer organizations, industry conferences, and award ceremonies. Together, we achieved tremendous collaboration, innovation, and growth.

## CUSTOMER ENGAGEMENT

## THOUGHT LEADERSHIP RESOURCES

We truly believe that knowledge not shared is information lost. And that, together, we're better. At Electrosoft, we regularly deliver educational sessions, author thought leadership articles, and engage in conversations with government, industry, and academic leaders – all to help advance the cyber resilience of our country. Here are a few articles, presentations, and podcasts from 2023.
For more cybersecurity videos, white papers, articles, presentations, and other content assets, visit the Resources page of our website.

## COMMUNITY ENGAGEMENT AND SUPPORT

A culture of gratitude and generosity infuses many of our company and team activities. In 2023, we shared our time, talent, and treasures to support numerous charitable organizations that are making a difference in the communities where we live and work.

**Ashyanaa Organization**
$5,500 sponsorship

**Semper Fi & Americas Fund**
Electrosoft Team raised over $1,900

**SevaTruck Foundation**
Team members helped prepare 350+ meals

**The Arc of Northern Virginia**
9th Year as Team Walk participants

Every month, Electrosoft donates $100 on behalf of an employee who selects the nonprofit. In 2023, these organizations received employee-directed donations. (One nonprofit was selected twice).

## EMPLOYEE ENGAGEMENT

We really do like each other and love what we do together, in and out of work. Throughout the year, we make a point to connect – both virtually and in person – for fun, celebration, and just the right amount of friendly competition!

## EVOLVING CHALLENGES, MEANINGFUL INNOVATIONS AHEAD

Identity management. Artificial intelligence and machine learning. Zero Trust. OSCAL. FIDO passkeys. And so much more! Though malicious actors continue to evolve their tactics, techniques, and procedures, the government cybersecurity community is advancing meaningful innovations that are making a difference. We're proud and honored to be part of it all, with you. Thank you for your support and collaboration for all that's ahead.
